Subject: [External_Sender] Revised Schedule for Braidwood Station Mussels Survey
Date: Monday, August 31, 2015 11:41:50 AM

Rick –

As we discussed by phone this morning, Exelon Generation expects to complete the mussels survey near the Braidwood Station discharge diffuser in the Kankakee River during September 1 and 2, 2015, and, unless there are unforeseen difficulties with the field work, intends to provide a final report of results to NRC and USFWS by the end of September 2015.

This message supersedes the one I sent to you on August 5, 2015 indicating that the final report would be submitted by mid-December.

Please call if you need additional information.

Regards,

Nancy
