Docket Nos. 50-269, -270, -287

Dear Sir:

With regard to the NRC letter dated August 21, 1979 and my letters of August 31, and December 3, 1979, the response to Item 7-1A, benchmark analysis of sequential AFW flow to the steam generators following a loss of main feedwater, is still in preparation. It is expected to be provided to Duke by B&W the first week of January 1980, and following our review, will be submitted by January 15, 1980.

Very truly yours,

William O. Parker, Jr.
