Title: Public Conference Call with STP Nuclear Operating Company Regarding Upcoming Submittal of a License Amendment Request to Remove a P-16 Permissive Relay from the Reactor Protective System.

Date(s) and Time(s): September 16, 2015, 03:00 PM to 04:00 PM

Location: NRC One White Flint North, O8B02
11555 Rockville Pike
Rockville, MD

Category: This is a Category 1 meeting. The public is invited to observe this meeting and will have one or more opportunities to communicate with the NRC after the business portion of the meeting but before the meeting is adjourned.

Purpose: The purpose of this pre-application public conference call is for STP Nuclear Operating Company (STPNOC) to discuss with the U.S. Nuclear Regulatory Commission (NRC) staff proposed modifications to the reactor protective system by removing P-16 permissive relays. The P-16 permissive relay is a redundant reactor protective system (RPS) feature that stops the main steam turbine if the reactor is automatically shut down by the RPS.
