

FIGURE 1

Figure 1: Comparison of Limit Line (LL) and Best Estimate (BE) predictions, with embrittlement (BE_e) and without embrittlement (BE_{ne}).

Note:

- (1) BE_{ne} predicts possible failure at end of life (EOL).
- (2) BE_e predicts failure ($CUF_{en} = 1.0$) before end of life.
- (3) BE_e predicts possible failure well before end of life.
