ATTN: GLTS,

Re: Notice of Corporate Name Change  
PCPC, Inc. ("Permittee")  
177 Angell Street  
Battle Creek, MI 49037  
Radiation License # GL-700091-19

To Whom It May Concern:

Permittee currently operates the above-referenced facility pursuant to an environmental permit issued by your agency. On July 1, 2015, Rock-Tenn Company, the parent company of Permittee, entered into a business combination with MeadWestvaco Corporation. As the result of this business combination, Rock-Tenn Company became a wholly owned subsidiary of a new entity named "WestRock Company." (This series of transactions did not directly affect the legal entity that holds the above-referenced permit.) In conjunction with the completion of the business combination, it is our intention to change the legal name of Permittee to WestRock California, Inc. as of September 1, 2015.

The purpose of this letter is to notify you of the upcoming name change and request that the agency make this name change on the above-referenced permit. Although the Permittee will have a new corporate name, the legal entity that owns and operates the facility will not change, and no changes in management, environmental personnel or daily operations at the facility will occur.

Please contact me at 314-656-5367 or [rob.bockstruck@westrock.com](mailto:rob.bockstruck@westrock.com) if follow-up paperwork or other submissions are required to change the name on our permit or if you have any questions about this matter.

Thank you for your assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Rob Bockstruck", written over a horizontal line.

Rob Bockstruck  
Environmental Services Manager
