Dear Sir or Madam:

Appendix B, Section 3.2, of Operating License Nos. NPF-10 and NPF-15 for San Onofre Nuclear Generating Station (SONGS), Units 2 and 3 respectively, requires violations of the National Pollutant Discharge Elimination System (NPDES) Permit or State certification (pursuant to Section 401 of the Clean Water Act), to be reported to the NRC by submittal of copies of the reports required by the NPDES Permit or certification.

On September 15, 2014, during a review of the NPDES self-monitoring reports, SCE staff discovered that annual and semi-annual samples and required reports that were due in 2014 were not submitted on time to the San Diego Regional Water Quality Control Board. SCE verbally notified the offsite agency of the missed reports; including notification to the NRC of the offsite notification to an outside agency per 10 CFR 50.72(b)(2). A follow-up letter was sent to the California Regional Water Quality Control Board on September 25, 2014 (Reference 1) documenting the reports that were missing and the corrective actions that SCE had executed to ensure that the missed reporting noted in the letter would not occur in the future.

A Staff Enforcement Letter from the California Regional Water Quality Control Board to SCE SONGS dated July 10, 2015 (Reference 2) was received documenting the self-identified late reports (Reference 1) as a violation for submitting late reports. No response or additional action is required by SCE.

Additional details can be found in the enclosed referenced letters.

Subject: Follow-up report for the missed semi-annual (2013 second half; 2014 first half) and annual report (2013): Order No. R9-2005-0005 (NPDES Permit No. CA0108073) and Order No. R9-2005-0006 (NPDES Permit No. CA0108181).

Dear Mr. Gibson:

- On September 15, 2014, during a review of the NPDES self-monitoring reports, SCE SONGS environmental staff discovered that the following reports were not submitted and are now past due:
  - Unit 2 Semi-annual Report, 2013 second half
  - Unit 3 Semi-annual Report, 2013 second half
  - Unit 2 Annual Report, 2013
  - Unit 3 Annual Report, 2013
  - Unit 2 Semi-annual Report, 2014 first half
  - Unit 3 Semi-annual Report, 2014 first half
- The missed samples and associated reports are non-radiological in nature.
- The oversight appears to be due to the staff changes and lack of familiarization with program requirements. SCE is also performing a self-assessment to ensure that any gaps in procedure, reports and/or lack of clarity with respect to roles and responsibilities are promptly addressed.
- Interim corrective actions have been taken including the assignment of a SONGS experienced environmental manager to provide oversight and direction for compliance matters, including the NPDES monitoring and reporting requirements.
- SCE will submit the 2013 Annual Report with the summaries of the monthly and quarterly monitoring data that had been gathered for the 2013 year in both tabular and graphical format by October 16, 2014. No analytical data exists for the semi-annual reports or the annual report.
- Semi-annual and annual sampling have been completed during the week of September 25, 2014 and the results will be provided to the San Diego RWQCB upon receipt.
- SCE made verbal notification to Ben Neill on September 19, 2014.

If you have any questions please contact me at (949) 368-7311

Sincerely,

  
Brian D. Metz  
Manager, Environmental
