

In the matter of Crow Butte Resources Inc.
License Renewal for the In Situ Leach Facility, Crawford Nebraska

Docket No. 40-8943

ASLBP No. 08-867-02-OLA-BD01

Please consider this as my written comment statement to this matter.

- Name Lance Paul Paris
- Address 714 Main Street Crawford NE 69339-1036
- Phone home (308) 665-1992 work (308) 432-6999
- How far away from my property is Crow Butte Resources ISL uranium mine? about five miles
1. Do you or anyone in your home have health issues? yes
Examples skin problems joint aches some eye hear problems
2. Do you have issues with your water on your property? yes
Examples Possible contamination by mining
3. Do you believe that In Situ Leach mining can damage ground water, aquifers? yes
4. Do you believe recent research on In Situ leach mining should be considered? definitely
5. Do you believe the Oglala Sioux Tribe, as neighbors should have been formally consulted in the permit process? definitely
6. Do you believe the Final Environmental Assessment violates the National Environmental Policy Act in concluding that the short-term impacts from consumptive ground water use during aquifer restoration are MODERATE? yes
7. Do you believe the Final EA violates policies and regulations by failing to include discussion of ground water restoration mitigation measures? yes
8. Do you believe the Final EA omits discussion of the impact of tornadoes on the license renewal area, and inadequately discusses the potential impacts from the land application of ISL mining wastewater? yes
9. Do you believe the Final EA violates the National Environmental Policy Act in its failure to provide an analysis of the impacts on the project from earthquakes; especially as it concerns secondary porosity and adequate confinement? yes

IN MY OWN WORDS:

There are several neighbors where I live have died of cancer especially those that lived here. More people have cancer in this area than other places. I have some skin deterioration some bumps on it, some joint aches at times, anxiety, eye redness, some ear ringing, and

other ailments which may be more
than just my age and its a good
chance that these things could be caused
by the Manganese mining facility. There
is a good chance this is the cause. I
was diagnosed with heavy metal toxicity
five years ago and treated for it. My
spouse has many symptoms of manganese
poisoning and currently being treated
for it. I feel that just as many medical
professionals believe the manganese mine
should be closed.
