Docket Nos. 50-413, -414  
Changes to Inspection Report Service Lists

The purpose of this letter is to provide information that will permit the informal transmittal of Duke Energy Corporation Inspection Reports by electronic mail. In addition to Duke's internal addressees, most of the external addressees have been contacted to confirm their desire to remain on the distribution, and to solicit their electronic mail address if agreeable.

Duke continues to expect a limited number of paper copies since these are considered the official version of these reports. However, electronic transmittal will facilitate the review of this information in advance of receipt of the paper copy. It will also minimize the amount of paper copies that need to be generated and the need for continuous revision as people and addresses change.

Attached are marked up pages of each site's Inspection Report Service List. Those entities where e-mail addresses are given may be removed from paper copy distribution. Additionally, there are several other changes as a result of our contacting the various non-Duke recipients.

Questions on this matter may be directed to Laura Burba, Nuclear Regulatory and Industry Affairs, 704-382-3131.
