Subject: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Sir:

Pursuant to 10 CFR 50, §50.90, please find attached (Attachment 1) a proposed amendment to the Oconee Facility Operating License and revision to the Oconee Nuclear Station Technical Specifications. The requested revisions are administrative in nature and are, therefore, of no significance with respect to the health and safety of the public.

The proposal contains changes to correct a typographical error, delete an expired footnote, update the station organization by adding the Station Services and Integrated Scheduling areas, and provide clarity and consistency through different wording.

Please find attached (Attachment 2) the No Significant Hazards Consideration evaluation. Duke has determined that the proposed amendments warrant a No Significant Hazards Consideration, since Administrative changes are involved. Duke is forwarding a copy of this application to the South Carolina Department of Health and Environmental Control for review and, as appropriate, subsequent consultation with the Staff.

Pursuant to 10 CFR 170, §170.12, please find enclosed a check in the amount of \$150.00 for application fee.

Very truly yours,

Hal B. Tucker
