SUBJECT: Correction to NRC License 06-00819-03

Dear Mr. Tripp,

In reviewing our Yale-New Haven Hospital NRC broad scope license, No.: 06-00819-03, Amd. No. 66, we noticed a technical error in Item 6. H. of the license, on page 2 of 10.

The isotope currently listed, for our authorization to use TheraSpheres or SirSpheres, is Strontium-90. This should be corrected to Yttrium-90.

Thank you for your attention to this matter.

If you have any further questions, please feel free to contact the Radiation Safety Officer at mike.bohan@yale.edu or (203) 688-2950.

Sincerely,

Michael J. Bohan
