Michelle R. Beardsley, Health Physicist  
State Regulation Review Coordinator  
U.S. Nuclear Regulatory Commission  
ASPB/MSTR/NMSS  
Washington, DC 20555-001

Dear Ms. Beardsley:

Attached is a copy of the proposed revisions to the North Dakota Radiological Health Rules as identified below. Because North Dakota adopts the NRC rules by reference, the attachments reflect the changes being made to those sections of the rules that have been previously adopted. The changes as tracked in the attachments correspond to the following NRC's regulations.

<b>RATS ID</b>	<b><u>Title</u></b>	<b><u>State Section</u></b>
2012-3	§ 30.34(h)(1)(ii)	Terms and conditions of licenses
	§ 34.20(a)(1)	Performance requirements for industrial radiography equipment
	Part 40, Appendix A, section I, Criterion 4(d)	Criteria Relating to the Operation of Uranium Mills.....
	Part 40, Appendix A, section I, Criterion 8A	Criteria Relating to the Operation of Uranium Mills.....
	Part 71, Appendix A, Table A-1	Packaging and Transportation of Radioactive Material, A <sub>1</sub> and A <sub>2</sub> Values for Radionuclides

We believe adoption of these sections will satisfy the compatibility and health and safety categories established in the office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200.

Ms. Beardsley
