Subject: [External_Sender] Addendum: Belgium Reactor Cracks in USA Reactors

Mr. Koenick,

Please add this e-mail as a addendum to my 2.206 and could the Petition Board address this concern?

"As part of the NRC review and approval of IPEC 3 Reactor Vessel Heatup and Cooldown curves, in ML15226A159 dated 9-3-15, was the possible adverse affects of this change considered in regard to IN 2013-19 Quasi Laminar Indications in RPV Forgings?"

Sincerely,

Mike Mulligan
