CHAPTER 17

QUALITY ASSURANCE

17.1 QUALITY ASSURANCE DURING DESIGN AND CONSTRUCTION

Not applicable to the update of the Oyster Creek Nuclear Generating Station FSAR.

17.2 QUALITY ASSURANCE DURING THE OPERATIONS PHASE

AmerGen Energy Company, LLC (AmerGen), is responsible for the operation and maintenance of the Oyster Creek Nuclear Generating Station (OCNGS). These activities are presently conducted in accordance with the NRC approved Quality Assurance Topical Report (QATR), NO-AA-10, which describes the formal and comprehensive control methods established to assure compliance with 10CFR50, Appendix B.

The QATR describes how the Quality Assurance Program is to be functionally implemented with due regard to the safety and health of the public and the personnel on site. Supplements to the plan contain the requirements which are unique to OCNGS. The plan and the supplements pertaining to OCNGS are incorporated herein by reference.
