Regulatory

File Cy.

Dear Dr. Morris:

Duke Power Company is filing herewith Amendment No. 9 to its Application for Licenses for the Oconee Nuclear Station, which is under construction pursuant to provisional construction permits CPPR-33, -34, and -35 issued by the Commission on November 6, 1967. This filing includes three (3) signed original copies of the Amendment, and seventy (70) copies of Revision No. 2 to the Oconee Final Safety Analysis Report, which was filed as Amendment No. 7 on June 2, 1969.

This Amendment is in a format designed to keep current the application and the Final Safety Analysis Report. Please add the supplementary pages and insert the revised pages as replacements for existing pages in the seventy-three (73) copies of the Final Safety Analysis Report (Serial Nos. 1-73), as per the attached tabulation identified as FSAR Revision No. 2.

This Amendment also incorporates by reference, as part of our license application, the following Babcock & Wilcox Topical Reports which have been filed by Babcock & Wilcox with the commission as "proprietary" documents.

B&W
Topical Report

Babcock & Wilcox has informed Duke that these Topical Reports have been treated as confidential in nature because Babcock & Wilcox has independently conducted research and development to obtain data recorded in them. Duke is also informed that these data are not available in the open literature and their disclosure would provide knowledgeable individuals with information which would impair B&W's competitive position. Accordingly, Duke Power Company hereby requests, pursuant to AEC Regulation 10 CFR §2.790, that the proprietary classification of these Topical Reports be preserved and the reports be withheld from public disclosure.

Sincerely,

A. C. Thies

DOCKET NOS. 50-269
50-270
50-287

AMENDMENT NO. 9
TO
APPLICATION FOR LICENSES

Duke Power Company, Applicant in the above-captioned proceeding,
hereby files Amendment No. 9 to its Application for Licenses.

This Amendment No. 9 includes the following document appended
hereto and made a part hereof:

Revision No. 2 to the Final Safety Analysis Report,
which includes a complete revision of Appendix 1 B, and
includes substitution and supplementary pages as indi-
cated to cover various changes and corrections in the
Final Safety Analysis Report.

This Amendment also incorporates by reference, as a part of Duke
Power Company's License Application, the following Babcock & Wilcox
Topical Reports which have been filed by Babcock & Wilcox with the Atomic
Energy Commission as "PROPRIETARY" documents:

<u>B&W Topical Report No.</u>	<u>Date</u>	<u>Title</u>
BAW-10008-Part 2	October, 1969	"Fuel Assembly Stress and Deflection Analysis for Loss-of-Coolant Accident and Seismic Excitation"
BAW-10012	October, 1969	"Reactor Vessel Model Flow Tests"

Babcock & Wilcox has informed Duke that these Topical Reports have been treated as confidential in nature because Babcock & Wilcox has independently conducted research and development to obtain data recorded in them. Duke is also informed that these data are not available in the open literature and their disclosure would provide knowledgeable individuals with information which would impair B&W's competitive position. In the letter dated February 9, 1970 from Mr. A. C. Thies to Dr. Peter A. Morris, transmitting this Amendment No. 9, Duke Power Company has requested that the proprietary classification of these Topical Reports be preserved and the reports be withheld from public disclosure.

IN WITNESS WHEREOF, Duke Power Company has caused its name to be hereunto signed by A. C. Thies, its Vice President, and its corporate seal to be hereto affixed by James S. Sease, its Assistant Secretary, this 4th day of February, 1970.
