Re: Oconee Nuclear Station  
Docket Nos. 50-269, -270, -287

Dear Mr. Dicker:

Your letter of February 20, 1975 requested that we provide technical details concerning the configuration, performance and other parameters of the permanent radwaste system at Oconee Nuclear Station. It is our intention to evaluate the performance of the interim waste facility prior to completion of design of the permanent facility. Therefore, the details concerning the system configuration will not be available until approximately July, 1975, and will be provided to you at that time. The information contained in my letter of May 2, 1974 (which described the interim waste facility at Oconee), Section 11 of the Oconee FSAR, and Section 2.7 of the Oconee Semiannual Reports should assist in your present review and assessment of waste systems at operating plants.

Very truly yours,

A handwritten signature in cursive script, appearing to read "A. C. Thies".

A. C. Thies
