Re: Oconee Units 1, 2 & 3
Docket Nos. 50-269, -270 and -287

Dear Dr. Morris:

Regulatory

File Cy.

Two Babcock & Wilcox Topical Reports, listed below, are referred to in Duke's Final Safety Analysis Report which was submitted as Amendment No. 7 to the Application for Licenses for the Oconee Nuclear Station:

<u>Topical Report No.</u>	<u>Date Filed</u>	<u>Title</u>	<u>Reference</u>
BAW-10002	August 1969	"Once-Through Steam Generator Research and Development Report"	Amendment 7 FSAR Section 4 Page 28
BAW-10005	July 1969	"Internals Vent Valve Evaluation"	Amendment 7 FSAR Section 3 Page 62

These two Topical Reports have been previously filed by Babcock & Wilcox with the Commission as "PROPRIETARY" documents. Duke Power Company hereby requests that these Topical Reports be incorporated by reference in its Application for Licenses for the Oconee Nuclear Station.

Babcock & Wilcox has informed Duke that these Topical Reports have been treated as confidential in nature because Babcock & Wilcox has independently conducted research and development to obtain data recorded in them. Duke is also informed that these data are not available in the open literature and their disclosure would provide knowledgeable individuals with information which would impair B & W's competitive.

Dr. Peter A. Morris

position. Accordingly, Duke Power Company hereby requests, pursuant to AEC Regulation 10 CFR § 2.790, that the proprietary classification of these Topical Reports be preserved and the reports be withheld from public disclosure.

A copy of this letter is being mailed concurrently with the mailing of the originals to you, to Mr. Reese A. Hubbard, County Supervisor of Oconee County, Walhalla, South Carolina, in compliance with AEC Regulation 10 CFR § 2.101.

Sincerely,

A. C. Thies
