Re: Oconee Unit 1 and 2
Docket Nos. 50-269, -270

Dear Mr. Giambusso:

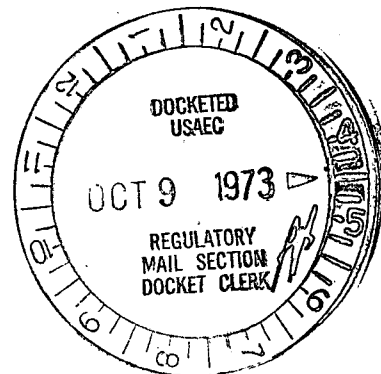

Duke Power Company agrees to close the block valve RC-4 until approval of the wall thickness analyses for electromatic relief valve RC-66 is obtained from Regulatory Operations, except the block valve RC-4 may be opened for reactor transients. Discussions are presently being held with Regulatory Operations, Region II, and it is expected that the wall thickness verification program for RC-66 will be found acceptable in the very near future.

Very truly yours,

A. C. Thies
