Gentlemen:

RE: OCONEE NUCLEAR STATION UNITS 1, 2 AND 3

Our letter to you dated February 19, 1976, provided guidance with respect to information that must be filed with the Commission under the provisions of Section V.B of Appendix I to 10 CFR Part 50, issued May 5, 1975.

As discussed in our telephone conversation on March 23, 1976, the NRC staff will host a 1-day meeting at our Region II Office at the Federal building, 275 Peachtree Street, Room 556, Atlanta, Georgia, April 6, 1976 beginning at 9:00 a.m., to provide additional guidance and to discuss the submittal of data and methods of evaluation. To assure that the discussions are productive, we are requesting that you send technical representatives to this meeting who will be directly involved in furnishing the required information and data, with respect to the radwaste treatment and effluent control systems, site meteorology and hydrology, and radiological dose assessment.

If we can assist you in making arrangements for your participation in this meeting, or if you have problems or questions concerning your travel arrangements, please contact Phillip Chendani, Region II, at Area Code 404/526-4503 or FTS 285-4503.

Sincerely,
