Dear Mr. Woods,

I've reviewed your 2015 exempt distribution report dated January 7, 2016.

In your report you indicated that all of the spark gaps listed in your report were transferred for use under 10 CFR 30.15(8i). This regulatory citation is incorrect and should be 10 CFR 30.15(a)(8)(i). Please revise and resubmit your report to indicate the correct regulatory citation. Also, for your information, only the first three pages of your report are necessary to meet the reporting requirements in 10 CFR 32.16; it is not necessary to provide the detailed information that you provided starting on page 4 of your report with the heading, "SHIPMENT OF PRODUCTS CONTAINING TRITIUM 1/05/16." Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution
Director, Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,
Eric
