RE: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

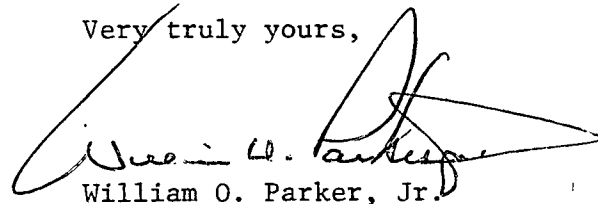

Dear Mr. Case:

As allowed by 10CFR20 §20.207, certain licensed material has been stored in a secured warehouse, designated as Warehouse No. 4, in the unrestricted area at Oconee Nuclear Station. The warehouse is located approximately 172 feet West of the interim waste building as shown on the attached map. This area is bounded on one edge by a parking lot approximately 95 feet from the warehouse.

The warehouse interior, which will be considered as a restricted area, is used as a storage area for radioactively contaminated tool and equipment items. It is occupied by station personnel equipped with dosimetry only when storing material or removing stored material. Occupancy times by unmonitored personnel in the area surrounding the warehouse is negligible.

Based on the need for this storage, it is requested, pursuant to the provisions of 10CFR50 §50.90, and 10CFR20 §20.105(a), that an amendment to the Oconee Facility Operating Licenses DPR-38, -47, and -55 be approved permitting the area surrounding Warehouse No. 4 to be utilized such that based on occupancy time it is unlikely that any unmonitored individual would receive a dose in excess of the dose limits specified in 10CFR20 §20.105 a and b(1) and (2). In addition, a dose rate of 2 mrem/hr will not be exceeded on the exterior side of the warehouse walls.

Very truly yours,

William O. Parker, Jr.

WILLIAM O. PARKER, JR., being duly sworn, states that he is Vice President of Duke Power Company; that he is authorized on the part of said Company to sign and file with the Nuclear Regulatory Commission this request for amendment of the Oconee Nuclear Station Facility Operating Licenses DPR-38, DPR-47, and DPR-55; and that all statements and matters set forth therein are true and correct to the best of his knowledge.

William O. Parker, Jr., Vice President

Subscribed and sworn to before me this 4th day of January, 1978.

Notary Public
