MEMORANDUM FOR: W. B. Kenna, Safeguards Branch, RO-II

FROM: J. G. Whiteaker, Acting Assistant Director for Safeguards, OIE

SUBJECT: RECOMMENDATION FOR AMENDMENT TO SECURITY PLAN - OCONEE

Reference is made to your Evaluation Memorandum of August 30, 1976 to Gen Roy (AITS #F21040H2) where you noted the licensee was using a walk-through metal detector without establishing a program to verify that it is functioning properly.

NER has informed the licensee that the instrument is inherently incapable of detecting non-ferrous metal and they must continue irregular and unscheduled searches as committed to in their current security plan. A copy of this correspondence is enclosed. We note, however, that after May 25, 1977 the licensee must search all persons, packages and vehicles for weapons, explosives, and incendiary devices in accordance with 10 CFR 73.55.

Original Signed by
J. G. Whiteaker

James G. Whiteaker,
Acting Assistant Director for Safeguards
Office of Inspection and Enforcement

Encl: *(not attached)*
As Stated Above

cc: Gen Roy
