Pamala Henderson, Deputy Director  
Division Material Safety, State, Tribal,  
and Rulemaking Programs  
Office of Nuclear Material Safety  
And Safeguards  
U.S. Nuclear Regulatory Commission  
T8-E18  
Washington, D.C. 20555-0001

Dear Ms Henderson:

Enclosed are RATS ID roadmaps and copies of the adopted New Hampshire Radiological Health Rules He-P 4003 Definitions, He-P 4020 Standards for Protection Against Radiation, He-P 4022 Surveys and Monitoring, He-P 4032 Specific Licenses, and He-P 4035 Use of Radionuclides in the Healing Arts. The final New Hampshire rules are identified by their state parts and sections and correspond to the following equivalent amendments to NRC's regulations.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
• 1997-3	Criteria for the Release of Individuals Administered Radioactive Material Parts 20, 35	He-P 4003, 4020, and 4022, and 4035
• 2002-2	Medical Use of Byproduct Material Parts 20, 32, 35	He-P 4003, 4020, and 4032, and 4035

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200.

If you have any questions, please feel free to contact me at (603) 271-4585 or my email:  
augustinus.ong@dhhs.state.nh.us

Sincerely,

Augustinus Ong, Administrator
