Subject: Email information

Discussion: Mr. Simpson sent me an email on a January 21, 2016, with the email attached saying that it was "For Official Use Only" and disseminated only on a "Need to Know" basis. Also it said the email was privileged and confidential. I talked to Mr. Simpson and he said that it was not confidential and can be publically released.

With the email was an attachment for Appendix A. Appendix A contained pictures of the facility he desired to be released along with the attached building and parking lot area. The pictures were labeled as "FOR OFFICAL GOVERNMENT USE ONLY, Unauthorized reproduction or distribution prohibited, DO NOT REMOVE THIS NOTICE, and Properly destroy documents when no longer required." I asked if his agency classified this and if they had procedures to do so. I also told him that I did not need the pictures for this licensing action and he could request for them to be returned or destroyed. He asked for them to be destroyed.

Action Required: Destroy Appendix A and place the rest in ADAMS.

Christian,

To follow-up on my call this morning, Paul Simpson has asked our office for the "missing" appendices A & B for him to forward to the NRC.

Reviewing a copy of a draft decommission plan (dated December 5<sup>th</sup>, 2015) this afternoon, I have found that there are references to Appendix A, B, C, D, J & N that were not attached to this draft revision.

Paul Simpson has asked only for Appendices A & B, but I would suggest we be proactive and provide all the referenced sections to him. The attached NRC comments also show what appear to be the missing Appendices A & B on pages 4-7 of 12.

Also, I understand that Beck or PHILOTECHNICS provided the final Revision #2 that addressed the NRC's on or about December 11<sup>th</sup>. Would you please provide me a copy of the file for our records?

Thanks!

Harry Marsh, Architect

Paul:

Thank you for your call this afternoon regarding the information (data and links) submitted by Beck/Philometrics last Friday (December 11, 2015) in response to the NRC review of the draft Decommissioning Plan. I understand the above mentioned information appears satisfactory, and that you will accordingly forward it to the NRC for final approval of the Demolition Plan and NRC release to perform the Status Survey.

Please let me know if I can be of any further assistance in this regard.

Ken
