**SUBJECT:** SWVA, INC., REQUEST FOR ADDITIONAL INFORMATION CONCERNING APPLICATION FOR RENEWAL OF LICENSE, CONTROL NO. 589847

Dear Mr. Rulen:

**Please acknowledge receipt of this communication.**

This is in reference to your application dated December 30, 2015 requesting to renew Nuclear Regulatory Commission License No. 47-16310-02. In order to continue our review, we need the following additional information:

- During a telephone discussion on February 3, 2016, we discussed with you the information that was unclear, inadequate, or incorrect. When reviewing your options, you indicated that you would prefer to submit using the guidance in Appendix B of NUREG 1556, Volume 4, Rev. 1. Appendix B of NUREG-1556, Volume 4, Rev. 1 can be found at <http://pbadupws.nrc.gov/docs/ML1307/ML13073A053.pdf>. Please print the pages of Appendix B only and check off the applicable responses.
- Please submit the Appendix B checklist under a cover letter signed by a member of Senior Management. Preferably, you could scan the documents and email them to this email address; however, you can submit by mail or fax if you prefer. Our fax number and mailing address are listed below.

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention and refer to Mail Control No. 589847. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5171 or Jim Cassata at (610) 337-5303.

In order to continue a prompt review of your application, please respond within 30 calendar days from the date of this communication.

Regards,
