

**Quarterly Status Report for Technical Assistance
Provided by the United States Department of Energy
January 1 through March 31, 2014
2nd Quarter of Fiscal Year 2014**

I. Introduction

The Department of Energy (DOE) and the Nuclear Regulatory Commission (NRC) have entered into five interagency agreements for DOE to provide technical assistance in carrying out NRC's responsibilities with respect to classified matter protection programs at various licensee sites. These interagency agreements are:

- *J5709 - Classification of Information at the General Electric-Hitachi Global Laser Enrichment Uranium Enrichment Facility;*

Each of the Interagency agreements contains terms that require DOE to provide quarterly reports describing DOE activities relating to each of the agreements.

This is the sixth report prepared in accordance with the terms of the agreements.

II. Description of Activities During this Reporting Period

For a short portion of the reporting period, the DOE also continued development of a specialized SILEX-related derivative classifier training course.

A summary of the activities associated with each agreement follows:

A. Classification of Information at the General Electric-Hitachi Global Laser Enrichment Uranium Enrichment Facility - J5709

During this reporting period, no technical support was provided for this agreement.
