NUCLEAR REGULATORY COMMISSION**  
WASHINGTON, D.C. 20555-0001

March 18, 2016

Ms. Jennifer Opila, MPA  
Radiation Program Manager  
Hazardous Materials & Waste Management Division  
Department of Public Health and Environment  
4300 Cherry Creek Drive South  
Denver, CO 80246-1530

Dear Ms. Opila:

We have reviewed the proposed revisions to the Colorado Rules and Regulations Pertaining to Radiation Control, 6 CCR 1007-1, Part 16, received by our office on February 11, 2016. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of the two amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on March 17, 2016.

As a result of our review, we have nine comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Colorado regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Colorado regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Material Safety, State, Tribal, and Rulemaking Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other Colorado regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
The following comments are editorial in nature and are not related to compatibility					
1	16.6.1.1	39.31(b)	N/A	C	<b>Labels, security, and transportation precautions</b>  In 16.6.1.1 the inclusion of the phrase “(or exposure to)” does not make sense within the context of the sentence.
2	Part 16	Part 39	N/A	N/A	CO should consider changing all uses of the word “microcurie” to “microcuries” for consistency.
3	16.14	39.43	N/A	C	<b>Inspection, maintenance, and opening of a source or source holder</b>  By adding the phrase “required by 16.14.1 and 16.4.2” to 16.14.6, CO makes it less clear that records of inspection and maintenance should be retained because 16.14.1 and 16.14.2 do not require records of inspection and maintenance.
