Re: Radioactive Materials License 21-11315-04

This is to notify you of material changes in conditions affecting Radioactive Materials License 21-11315-04 issued to MPI Research, Inc., Mattawan, MI.

While the subject license was issued to MPI Research and is under Richard Granberg as the RSO, the license relied for compliance on a relationship between MPI and my company, 3D Imaging Drug Design and Development, LLC of Little Rock, AR (3DI). Specifically, Authorized Users with experience in cyclotron operations and handling of positron emitting radionuclides were supplied primarily by 3DI. 3DI has ceased to be a part of that relationship. As such, and Authorized Users named on that license who are 3DI employees are no longer associated with the operation or acting as Authorized Users. You will likely receive a license amendment from the RSO in due course if you have not already received it. As I have no control or input into the creation of such an amendment, this will serve as notification that 3DI personnel are no longer responsible for operation of the cyclotron or the laboratory referenced in the subject license or any other license that may have been or will be issued to MPI.

3DI Employees who have ceased to be associated with the MPI operations are:

Marc Berridge, Ph.D.
Scott Apana
Christina (Carpenter) Brown
Destiny Weems
Samantha Moores
Justin Mattingly

Sincerely,

A handwritten signature in black ink, appearing to read "Marc Berridge".
