(Facility Decontamination and Decommissioning Cost Estimate)

Dear Mr. Lawyer:

This letter is written to document our telephone conversation on Tuesday February 23, 2016 concerning my request for and your verbal acceptance of a 30-day extension to the receipt date for an updated decontamination and decommissioning cost estimate for the Lantheus Medical Imaging Radiopharmacy facility located at 150 Frederica Costa Street (Suite 1) San Juan, Puerto Rico.

As the Radiation Safety Officer and Director of Environment, Health and Safety at Lantheus Medical Imaging's home office, I have been asked to work with Philotechnics, Ltd. to develop an updated facility decontamination and decommissioning cost estimate (DDCE) to supersede the DDCE provided to your office dated September 2015 (Revised December 2015). I have reviewed the December 2015 DDCE and identified a number of inconsistencies within this document, which impact the accuracy and magnitude of the overall cost estimate.

I have contacted Philotechnics and initiated discussions to begin developing an updated DDCE, which I will finalize and submit to your attention by March 25, 2016. As discussed, Lantheus Medical Imaging will retain the current financial assurance surety value at \$533,472, pending the submittal and approval of the new DDCE.

Please contact me by telephone or email if you have any questions or require additional documentation concerning this matter.

A handwritten signature in blue ink, reading "Roy Greaves", is written over a horizontal line.

Roy Greaves, Radiation Safety Officer
Director, Environment Health and Safety
