Roger,

All of these are in the hands of SECY. 0104 is still at the Commission for final determination, 0187 is waiting on an email from a commissioner, and 0297 is waiting on SECY for return of documents. I emailed Kristy yesterday about all of them but I have not heard a response. When I do I will let you know

Hello,

I am still waiting for one Commissioner's response. I provided two partial responses to this request to you (from two Commissioners) and received a no records from another Commissioner. I'll check the status of this one with Commissioner staff and let you know.

Was something submitted to me for final Commission determination on this one?

I hope you're having a good day. I know Ross has been following up with this request regularly and you are doing the best you can to get us the final response. Do you happen to know if this last commissioner has records to provide and if yes how much longer? Thanks.

Mr. Bogardus,

Sorry for the late reply. I was out of the office on Friday. In regards to FOIA 2015-0187, I last checked with the program office that I tasked to return responsive documents middle of last week. The office stated they were waiting on a response from one more commission office. Once I receive the response, I will begin the process the document. The processing should go rather quickly, however, I do not have a timeline of when I will receive the last responsive document. SECY is the program office that was tasked to look for responsive documents and commission taskings can often be a lengthy process. When I receive word from SECY regarding the last document I will let you know that I have begun processing. Thank you for your patience as I work through this case.
