Classification: UNCLASSIFIED
Caveats: NONE

Jim,

I was able to break down these numbers into permanent and temporary impacts. Conversion impacts were not even discussed on this project until 2010/2011 timeframe. So, I'm assuming with the earlier versions, they were just lumping the permanent conversion impacts along with the permanent impacts tab.....but I have no way of confirming this.

Anyway, I hope this at least helps. Any questions, please let me know.

Thanks,
Amy

Go ahead and give it a try, but don't sweat it if there's not any more information that is readily available. If there is no more past detail, I can provide the table you sent in the FEIS (there were enough comments about it that Peyton and I thought it might be good to put it in a table for all to see rather than leave it buried in the text). I was just wondering if there was any more past detail that we could add to the table you sent. Early next week will be fine.

Thanks Amy,

Jim

Jim,

Got your VM. I think I may have some of what you want, but I can't guarantee it. I know I have nothing from 2008. They didn't even submit a permit application to us until April 2011, so I'm not sure

Bell Bend On-site Wetland Avoidance Table

Date	Wetland Impact (Acres) / Includes both Permanent and Temporary Impacts
Jun-08	100
Sep-08	38
Apr-09	34
Aug-09	27
Feb-10	11 (current proposal)

Impact Type / Amount (acres)

	Permanent	Temporary	TOTAL (acres)
Jun-08	98.9	1.5	100.4
Sep-08	36.1	1.5	37.6
Apr-09	33	1	34
Aug-09	26	1	27
Feb-10	10.25	0.9	11.15 (current proposal)

if I can get too specific with the impact numbers in 2008/2009 timeframe. Let me try. After today, I will be out the remainder of the week, but hopefully I can get back to you early next week. Will that work for you?

Thanks!
Amy

Hi Amy,

I left you a VM on this.....Is it possible and not difficult to put columns in the attached table you sent last Sept 23 for temporary, permanent, and conversion impacts over time?

Thanks,

Jim 509-371-7186 or 509-539-8646

Jim/Peyton,

As requested, please find a quick table I made up for the Bell Bend wetland impact (history of on-site avoidance).

Not sure you still want/need to use this for your terrestrial sections. But here it is.

Thanks,
Amy
