**Date:** Monday, March 14, 2016 3:44:00 PM  
**Attachments:** [Proposed Detailed Agenda for March 16 Workshop.docx](#)

---

Mike,

Sunil and I's understanding from the call was a little different. We had thought that other than the 30 minute discussion period on the topic of the .1 screening value for HEP, all of the other discussions would be limited to 15 minutes, leaving 45 minutes for a parking lot/catch all time at the end. I have attached what I had thought our understanding was. Let me know if you have any issues on this proposed agenda vs. what you had thought we discussed. I'll wait to publish the revised meeting notice until I get your OK on this agenda.

Alex

**Subject:** Draft of Proposed Detailed Agenda for March 16 Workshop

Mike/Tom,

Here is our proposal for the detailed agenda. For each of the seven issues, an NRC staffer will take no more than 3 minutes to introduce the comment and how it relates the planned workshop discussions.

We will discuss more during our call today so that your team can be best prepared.

We have informed all potential NRC participants of NRR\DRA's goal to keep process related discussions, observations, opinions, and other key issues that require NRC staff to receive additional guidance from NRC RISC outside the scope of this workshop.

I have also shared your presentation and Roy's presentations at the RIC with staff who provided comments since, at a high-level, those presentations contained information that addressed some staff concerns (e.g. EPRI initiatives to develop data and methods).

Sunil D Weerakkody, Chief  
PRA Operations & Human Factors Branch  
Office of Nuclear Reactor Regulation  
Nuclear Regulatory Commission

Address: Mail Stop O-10 C-15, US NRC, Washington DC 20005-0001

Tel: 301-415-2870
