Subject: RIC session participation

Bruce,

I am the Session Coordinator for one of the technical sessions for the upcoming Regulatory Information Conference March 8-10, 2016. Our session will be on upcoming changes to the operator initial license examination process, including the proposed revision to NUREG-1021 and other internal processes. We would like to invite NEI to participate on this panel to be held on Wednesday March 9, 2016. I was told that you are the point of contact for the NEI Operator Licensing Focus Group and therefore am sending you this e-mail to request NEI's participation on our panel. The point of contact for NEI participation in the RIC is Joseph Reed at NEI, who I sent an earlier e-mail about this topic. If you could please coordinate with him in letting me know who, if anyone, from your group is able and willing to participate, I would appreciate it. I need to send forms to panel participants which I need back by December 4, 2015, so if I could get a name by November 30th, I would appreciate it.

Thank you,

Theresa Buchanan
