SUBJECT: CLOSURE OF INVESTIGATION (OI 4-2015-024)

Dear Mr. Burke:

This refers to an investigation conducted by the U.S. Nuclear Regulatory Commission's (NRC's) Office of Investigations regarding activities at Premier Technology, Inc. The Office of Investigations initiated the investigation to determine whether: 1) the licensee willfully allowed an individual unescorted access to Categories 1 and 2 Quantities of Radioactive Material before completing a background investigation; 2) the licensee willfully failed to submit collected fingerprints to the NRC for transmission to the Federal Bureau of Investigation; and 3) if the licensee willfully provided incomplete and inaccurate information to an NRC inspector.

Based on the evidence developed during the investigation, the issue that the licensee willfully allowed an individual unescorted access to Categories 1 and 2 quantities of radioactive material before completing a background investigation was not substantiated.

Based on the evidence, the issue that the licensee willfully failed to submit collected fingerprints to the NRC for transmission to the Federal Bureau of Investigation was not substantiated.

Based on the evidence, the issue that the licensee willfully provided incomplete and inaccurate information to an NRC inspector was not substantiated. The NRC plans no further action related to the alleged wrongdoing and considers this investigation closed.

You should note that final NRC documents may be made available to the public under the Freedom of Information Act subject to redaction of information pursuant to the Freedom of Information Act. Requests under the Freedom of Information Act should be made in accordance with 10 CFR 9.23, Requests for Records. Information is accessible from the NRC's website at <http://www.nrc.gov/reading-rm/foia/foia-request.html#how>.
