

March 24, 2016

Docket: PROJ0769

U.S. Nuclear Regulatory Commission
ATTN: Document Control Desk
One White Flint North
11555 Rockville Pike
Rockville, MD 20852-2738

SUBJECT: NuScale Power, LLC Request for Suspension of Acceptance Review of TR-0915-17565-P, "Accident Source Term Methodology," Revision 0 (NRC Project No. 0769)

REFERENCE:

1. Letter from NuScale Power, LLC to U.S. Nuclear Regulatory Commission, "Submittal of Topical Report TR-0915-17565, 'Accident Source Term Methodology,' Revision 0" LO-1215-18837, dated December 28, 2015 (ML16004A215).
2. NuScale Topical Report "Accident Source Term Methodology," TR-0915-17565-P, Revision 0 (ML16004A218).

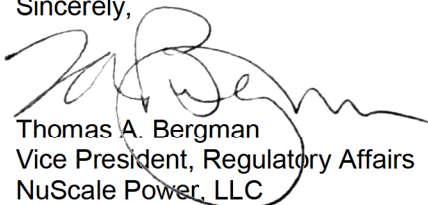

In Reference 1, NuScale Power, LLC (NuScale) submitted Topical Report TR-0915-17565-P, "Accident Source Term Methodology," Revision 0 (Reference 2). Recent feedback received from the NRC Staff as part of the NRC acceptance review indicates value in providing supplemental information to support the NRC's review of this topical report.

The purpose of this letter is to request the NRC to suspend its acceptance review of the Reference 2 topical report until a revision of the topical report is submitted. NuScale intends to submit Revision 1 of the Reference 2 topical report by April 8, 2016. NuScale respectfully requests that the NRC resume the 60 day acceptance review schedule after receipt of the topical report revision.

This letter makes no regulatory commitments and no revisions to any existing regulatory commitments.

Please contact Jennie Wike at 541-360-0539 or at jwike@nuscalepower.com if you have any questions.

Sincerely,

Thomas A. Bergman
Vice President, Regulatory Affairs
NuScale Power, LLC
