FREQUENTLY ASKED QUESTIONS HELD ON MARCH 24, 2016.

A Category 2 public meeting with industry representatives was held on March 24, 2016, to discuss and to evaluate initial acceptability of two (2) proposed emergency preparedness frequently asked questions (EPFAQs), which are publicly available in the Agencywide Documents Access and Management System (ADAMS) under Accession Nos. ML16070A201 and ML16070A207. The public meeting notice is in ADAMS Accession No. ML16061A441.

David Young from the Nuclear Energy Institute (NEI) presented the proposed EPFAQs, and the staff asked clarifying questions to ensure adequate understanding of the issues involved and the proposed resolution. The questions and proposed solutions were considered drafts and do not necessarily reflect the Nuclear Regulatory Commission (NRC) staff's position and have not been formally accepted for processing. Members of the public were provided an opportunity to provide comments.

NEI will be revising and resubmitting the proposed EPFAQs based on discussions with staff at the public meeting.
