Renewal Application

Dear Commissioners and Staff:

By Pacific Gas and Electric Company (PG&E) Letter DCL-09-079, "License Renewal Application," dated November 23, 2009, PG&E submitted an application to the U.S. Nuclear Regulatory Commission (NRC) for the renewal of Facility Operating Licenses DPR-80 and DPR-82, for Diablo Canyon Power Plant (DCPP) Units 1 and 2, respectively. The application included the license renewal application (LRA) and LRA Appendix E, "Applicant's Environmental Report – Operating License Renewal Stage."

By PG&E Letter DCL-15-142, "Response to NRC Letter dated November 5, 2015, 'Request for Additional Information Related to the Environmental Review of the Diablo Canyon Power Plant, Units 1 and 2, License Renewal Application (CAC Nos. MF4019 and MF4020),' " dated December 4, 2015, PG&E addressed requested additional information (RAI) needed for the NRC staff to continue their review of the DCPP LRA.

PG&E Letter DCL-15-142, Enclosure 2 provided a compact disk, which contained proprietary documents in support of applicable RAI responses that were withheld under 10 CFR 2.390 and the Freedom of Information Act [FOIA, 5 U.S.C. 552(b)(3)(5)]. PG&E revises the basis for withholding of PG&E Letter DCL-15-142, Enclosure 2 to Section 304 of the National Historic Preservation Act of 1966.

PG&E makes no new or revised regulatory commitments (as defined by NEI 99-04) in this letter.

If you have any questions regarding this response, please contact
Mr. Terence L. Grebel, License Renewal Project Manager, at (805) 458-0534.

I declare under penalty of perjury that the foregoing is true and correct.
