Dear Dr. Korir:

We have reviewed the proposed revisions to the New York City Department of Health (NYC DOH) Health Code Article 175, received by our office on February 25, 2016. The regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements and provisions identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on May 6, 2016.

As a result of our review, we have 13 comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the NYC DOH regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final NYC DOH regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

The SRS Data Sheet summarizes our knowledge of the status of other NYC DOH regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.
