SUBJECT: QUALITY ASSURANCE PROGRAM APPROVAL FOR RADIOACTIVE
MATERIAL PACKAGES NO. 0008, REVISION 13

Dear Mr. Simpson:

Enclosed is the revised Quality Assurance Program (QAP) Approval for Radioactive Material Packages No. 0008, Revision No. 13, in response to your letter dated February 17, 2016 (ML16048A308). As requested, QAP Approval Nos. 0019, 0045, and 0383 were consolidated in the subject Approval and will be terminated by separate correspondence. This Approval satisfies the requirements of 10 CFR 71.17(b) and 71.101(c) for a QAP approved by the U.S. Nuclear Regulatory Commission (NRC).

Termination of your materials license does not cause this Approval to be automatically terminated. If you wish to amend this Approval and have determined it reduces commitments, or terminate this Approval, please request it in writing.

This letter also serves as a reminder that if you are using or planning to use an NRC-approved packaging, you must be registered for use of that packaging with NRC. Registration for use of NRC-approved packagings should be made pursuant to 10 CFR 71.17(c)(3).

If you have any questions, please contact me at 301-415-7399 or Jeremy Tapp at 301-415-8047.

Sincerely,

/RA/
