Docket No. 52-046
MKD/NW-16-0221L

Subject: Revised Response to RAI 291-8347 for the Question 04.05.02-5

References: 1) NRC Request for Additional Information 291-8347, dated November 4, 2015
2) KHNP Letter MKD/NW-15-0256L, Response to RAI 291-8347, dated November 12, 2015
3) Email from John Vera, NRC; dated February 8, 2016 requested a docketed Technical Report (APR1400-Z-M-NR-14017-P) and a supplemental response to RAI 8347

KHNP is hereby submitting the revised response to RAI 291-8347, dated November 4, 2015. The RAI revised response addresses the Question 04.05.02-5. We would like you to view the file attached. The NRC recommended that we send the technical report "Evaluation of Irradiation Assisted Stress Corrosion Cracking and Void Swelling on Reactor Vessel Internals" directly rather than uploading the file to the ERR.

Enclosure 1 contains a copy of the associated affidavit. Enclosure 2 provides the revised response to RAI 291-8347 for the Question 04.05.02-5 (Non-Proprietary). Enclosure 3 provides the associated technical report APR1400-Z-M-NR-14017-P (Rev.0) (Proprietary). Enclosure 4 provides the associated technical report APR1400-Z-M-NR-14017-NP (Rev.0) (Non-Proprietary).

If additional information or clarification is required, please contact Daegeun Ahn, Director of KHNP Washington DC Center at ahn.daegeun@khnp.co.kr or 703-388-0592.

Sincerely,

1. Affidavit KAW-16-0221
2. Revised Response to RAI 291-8347 for the Question 04.05.02-5 (Non-Proprietary)
3. APR1400-Z-M-NR-14017-P (Rev.0) (Proprietary)
4. APR1400-Z-M-NR-14017-NP (Rev.0) (Non-Proprietary)

Enclosure 1

Affidavit KAW-16-0221

I, Yun-ho Kim, state the following:

1. I am the General Manager of Korea Hydro & Nuclear Power Co., Ltd. (KHNP), and as such I am authorized to request withholding the information transmitted with this letter from public disclosure and to execute this affidavit.
2. I am familiar with the criteria applied by KHNP to determine whether certain information is proprietary, and with the policies established by KHNP to ensure the proper application of these criteria.
3. The information, APR1400-Z-M-NR-14017-P (Rev.0) (Proprietary), transmitted with this letter has been classified by KHNP as proprietary in accordance with the policies for the control and protection of proprietary and confidential information. The information regarded as proprietary is identified and marked consistent with the requirements of 10 CFR 2.390, § (b)(1)(i). Accordingly, the proprietary information is enclosed within brackets and the right-hand bracket carries a notation of "TS" to indicate that the trade secret nature of the information claimed to be proprietary is the basis for proposing that the information so identified be withheld from public disclosure.
4. Pursuant to the considerations set forth in 10 CFR Section 2.390(a), KHNP considers the information classified as proprietary to be "trade secret" information since it is design, analysis, or test information that would be difficult for a competitor to reproduce and hence provides an economic and competitive advantage to KHNP.
5. The need for designating the information as proprietary has been raised within KHNP. The information is being treated proprietary and confidential and has not been disclosed by KHNP to the public.
6. Nondisclosure of the proprietary information transmitted with this letter is vital to the competitiveness held by KHNP and, hence, disclosure of the proprietary information transmitted in with this letter would have negative commercial impacts on the competitive position of KHNP in the U.S. nuclear market.
7. In accordance with KHNP policy, proprietary information contained in this document

may be, or may have been, made available on a limited basis to regulatory bodies, customers, potential customers, and their agents, suppliers, and licensees, and others under suitable agreements providing for nondisclosure and limited use of the information.

I declare that the foregoing statements are true and correct to the best of my knowledge, information and belief.

Executed on March 14, 2016.
