Mr. Blaha,

Sorry, I don't see this source listed in the sealed source and device registry. The item number is probably the order number that Eckert & Ziegler uses but it is not the model number that they register the source in the sealed source and device registry. Please contact them to get how the source is registered in the sealed source and device registry.

Also, sorry for the delayed response, I was out sick yesterday.

Dennis

Mr. Blaha,

I left you a voice mail. Sorry I don't think I left the phone number.

I just need the sealed source manufacturer and model number that you would like to be licensed to get.

Thanks
