LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

1. Based on the inspection findings, no violations were identified.

2. Previous violation(s) closed.

3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy to exercise discretion, were satisfied.

Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):

4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

Licensee's Statement of Corrective Actions for Item 4, above.

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

Subject: NRC Inspection Report 030-38058/2016-001

Jerry,

Thanks for your support as well as that of Michelle and Laura during the NRC inspection that was conducted on March 8, 2016, at the Gilbane Federal office in Concord, California. As discussed during the final exit briefing conducted with you on March 14, 2016, the attached NRC Inspection Report (NRC Form 591M) 030-38058/2016-001 presents the results of the inspection. No violations were identified. This Inspection Report does not require you to take any action and you are not required to sign it or return it. I do however request a courtesy email response acknowledging receipt.

Also thank you for providing letter dated March 11, 2016, providing notice of Gilbane Federal's termination of NRC licensed activities at the former Hunters Point Naval Shipyard. I think we had a good discussion about these activities both during and after the inspection. I am glad that we were able to discuss this matter with Gene Forrer of CDPH/RHB so that we are all on the same page as to the jurisdictional issues related to the site. I have cc'd him on this email for his awareness.

Please let me know if you have any questions.

Regards,
Janine
