Re: Reactor Watch, L.P.  
License #04-35122-01E

In accordance with the requirements of 10CFR 32.16, enclosed please find our report on goods transferred under our Exempt Distribution license #04-35122-01E during the period January 1, 2015 through December 31, 2015.

All goods listed on the report conform to the regulations set forth in 10CFR 30.15, paragraph 1. The only isotope in use by Reactor is tritium (H3), in glass vials produced by mb Microtec of Switzerland. Please note a few items show negative quantities. These represent net negative sales for the year caused by two large returns from customers. These items were returned to our inventory and will be sold to other customers in the future.

Should you need any clarification or any further information, please do not hesitate to contact me at the address, phone, or email below.

Sincerely,

Scott Lipsett  
Limited Partner, Reactor Watch L.P.
