

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 11, 2016

SECRETARY

MEMORANDUM TO: Victor M. McCree
Executive Director for Operations

FROM: Annette L. Vietti-Cook, Secretary **/RA/**

SUBJECT: STAFF REQUIREMENTS – SECY-16-0005 – CORNERSTONE
DEVELOPMENT FOR THE REVISED FUEL CYCLE PROCESS

The Commission has disapproved the staff's recommendation for a Revised Fuel Cycle Oversight Process (RFCOP). Given that the staff has already undertaken enhancements to the existing fuel cycle oversight process, and that the current process effectively ensures the safety and security of licensed activities at these facilities, the staff should not expend limited agency resources on any further development of a RFCOP.
