AUDIT OF NRC'S SHARED "S" DRIVE

OIG-11-A-15

Status of Recommendations

<u>Recommendation 2:</u>	Revise current information security training for NRC staff to address specific practices for protecting Sensitive Unclassified Non-Safeguards Information (SUNSI) on the agency's shared network drives.
Agency Response Dated February 29, 2016:	<p>The Office of the Chief Human Capital Officer (OCHCO) and the Office of the Chief Information Officer (OCIO) continue to work together on Recommendation 2. Staff anticipates closing this recommendation after publishing the policy for controlled unclassified information (CUI), which is dependent upon the National Archives and Record Administration's (NARA's) release of the CUI final rule. The estimated release date of the final rule is third quarter of fiscal year (FY) 2016. Staff will close this recommendation after the release of the CUI final rule which will incorporate SUNSI into the CUI identification and marking system. After the release of the final rule, OCHCO and OCIO will be able to finalize the information security training.</p> <p>Target Completion Date: First quarter of FY2017</p>
OIG Analysis:	The proposed action meets the intent of the recommendation. This recommendation will be closed when OIG receives documentation verifying that the training addresses protection of SUNSI within CUI on the agency's shared network drives.
Status:	Resolved.

AUDIT OF NRC'S SHARED "S" DRIVE

OIG-11-A-15

Status of Recommendations

Recommendation 3:

Develop Controlled Unclassified Information (CUI) policies and guidance for storing and protecting CUI in agency shared drives, and:

- a. post this guidance on the NRC intranet; and
- b. include this guidance in annual training.

Agency Response Dated
February 29, 2016:

The governmentwide CUI Advisory Council continues to develop policies for safeguarding CUI. Currently, the draft policy is undergoing the formal Office of Management and Budget (OMB) comment process. Efforts continue to align the requirements of the National Institute of Standards and Technology and OMB issuances with the CUI program. At this time, the CUI executive agent, NARA, recommends that departments and agencies make no changes in policy until NARA releases a final rule. The current estimated publication of the final CUI policy is the third quarter of FY2016. Therefore, staff does not expect to complete Recommendations 3, 3a, and 3b until the first quarter of FY2017.

Target Completion Date: First quarter of FY2017

OIG Analysis:

The proposed action meets the intent of the recommendation. This recommendation will be closed when CUI policies and guidance are developed, posted on the intranet, and included in annual training.

Status:

Resolved.
