Request for Consent – March 31, 2016**

SUPPLEMENTARY SHEET: 1 of 3

There are currently 47 "Other Parties to Export" listed on our license in alphabetical order. I will proceed in explaining the changes we are requesting by following the order the "Other Parties" are currently listed on said license, items 1 to 47. Since some sites have changed their names, it will change the (alpha) order in which they appear on the license if the NRC re-lists them in alphabetical order at the end of the process.

This section lists only the "Other Parties" that require changes and only indicates the changes requested.
