Emergency Plan Implementing Procedures Update

Dear Commissioners and Staff:

In accordance with 10 CFR 50.54, and including the requirements of 10 CFR 72.32 for the Independent Spent Fuel Storage Installation, Pacific Gas and Electric Company (PG&E) is providing a summary of the analysis of changes for Emergency Plan Implementing Procedures EP EF-10, "Activation and Operation of the Joint Information Center," EP RB-16, "Operating Instructions for the EARS Computer Program," and OM10.ID1, "Maintaining Emergency Preparedness."

The associated enclosures are listed below:

Enclosure	Title
1	Diablo Canyon Power Plant Emergency Plan Implementing Procedures, Revision Numbers for Emergency Plan Implementing Procedures
2	Summary of the Analysis of Changes for Emergency Plan Implementing Procedure EP EF-10, "Activation and Operation of the Joint Information Center," Revision 16
3	Summary of the Analysis of Changes for Emergency Plan Implementing Procedure EP RB-16, "Operating Instructions for the EARS Computer Program," Revision 13
4	Summary of the Analysis of Changes for Emergency Plan Implementing Procedure OM10.ID1, "Maintaining Emergency Preparedness," Revision 13

PG&E evaluated the changes for a reduction in effectiveness, as defined in 10 CFR 50.54(q), and concluded that the changes do not reduce the effectiveness of the Emergency Plan (E-Plan), and that the E-Plan continues to meet the requirements in Appendix E of 10 CFR 50 and the planning standards of 10 CFR 50.47(b). Therefore, prior NRC approval of the associated changes was not required.

This update does not contain privacy and proprietary information in accordance with NRC Generic Letter 81-27, "Privacy and Proprietary Material in Emergency Plans."

PG&E makes no new or revised regulatory commitments (as defined by NEI 99-04) in this letter.

If there are questions regarding this update, please contact me at (805) 545-3446.

Sincerely,

Michael A. Ginn
