Subject: [External_Sender] Strata License request

Sorry, I didn't append my message correctly.

Strata Energy has submitted a license application asking the NRC to let the company expand their uranium mining and processing site in Crook County near Devil's Tower and Oshoto Reservoir.

I was born and raised in Wyoming. Uranium mining in Wyoming has the potential to destroy a good portion of the Western watershed. The effects of the uranium industry are too great to our beloved state. There's already been massive damage from the mining industry in Wyoming to the ecology on many levels and to human communities on others. We have to move away from extraction industries in our state. It's being destroyed by extraction.

Please do not help these companies destroy our most precious ecology.

Sincerely,
Michael Johnson
