Docket No.: 72-1014 (HI-STORM 100)

Reference: 1. Holtec Letter 5014802, “Holtec International HI-STORM 100 Multipurpose Canister Storage System Amendment Request 1014-11,” from R. Ngwayah (Holtec) to M. Lombard (NRC), dated January 29, 2016

Subject: Modification to Requested Changes on HI-STORM 100 Amendment 11 Request

Dear Ms. Chen,

Holtec submitted an amendment request for the HI-STORM 100 CoC, Reference [1]. As stated in our submittal, some of the changes in the request are needed for expedited loading for our clients. Based on subsequent conversations with the staff, it has been determined that changes related to the hydrostatic and helium leak tests may require significant time for technical review. Therefore, to better ensure that our clients’ schedules are maintained, Holtec requests that the changes identified as Proposed Change #2 and Proposed Change #3 in Attachment 1 to Reference [1] be removed from the staff’s review of Amendment 11. Holtec may choose to re-submit these changes at a later date.

Please contact me at (856)797-0900 Extension 3951 if you have any questions or require any additional information.

Sincerely,

Kimberly Manzione
Licensing Manager
Holtec International
