Docket No. 72-1032, Certificate of Compliance (CoC) No. 1032

Reference: 1. Holtec Letter 5014802, “Holtec International HI-STORM FW Multipurpose Canister Storage System Amendment Request 1032-3,” from K. Manzione (Holtec) to M. Lombard (NRC), dated December 18, 2016

Subject: Modification to Requested Changes on HI-STORM FW Amendment 3 Request

Dear Ms. Chen:

Holtec submitted an amendment request for the HI-STORM FW CoC, Reference [1]. Some of the changes in the original request are needed for scheduled activities for our clients. Based on subsequent conversations with the staff, it has been determined that changes related to the hydrostatic and helium leak tests may require significant time for technical review. Therefore, to better ensure that our clients’ schedules are maintained, Holtec requests that the changes identified as Proposed Change #2 and Proposed Change #3 in Attachment 1 to Reference [1] be removed from the staff’s review of Amendment 3. Holtec may choose to re-submit these changes at a later date.

Please contact me at (856)797-0900 Extension 3951 if you have any questions or require any additional information.

Sincerely,

Holtec Center, One Holtec Drive, Marlton, NJ 08053
