Subject: NRC Acceptance Review for Amendment Request Regarding Adoption of TSTF-65-A, Revision 1

Ryan,

By letter dated March 14, 2016, Southern Nuclear Operating Company, Inc. submitted a license amendment request for the Joseph M. Farley Nuclear Plant, Units 1 and 2, Edwin I. Hatch Nuclear Plant, Units 1 and 2, and Vogtle Electric Generating Plant, Units 1 and 2 (ADAMS Accession No. ML16074A185; TAC Nos. MF7466, MF7467, MF7468, MF7469, MF7470, and MF7471) to adopt generic personnel titles in lieu of plant-specific personnel titles. In addition, an enhancement is proposed to replace the term "plant-specific titles" with "generic titles" in TS 5.2.1.a for each plant. These changes are in accordance with Technical Specifications Task Force (TSTF) Traveler TSTF-65-A, Revision 1, "Use of Generic Titles for Utility Positions." The purpose of this e-mail is to provide the results of the U.S. Nuclear Regulatory Commission (NRC) staff's acceptance review of this amendment request. The acceptance review was performed to determine if there is sufficient technical information in scope and depth to allow the NRC staff to complete its detailed technical review. The acceptance review is also intended to identify whether the application has any readily apparent information insufficiencies in its characterization of the regulatory requirements or the licensing basis of the plant.

The NRC staff has reviewed your application and concluded that it does provide technical information in sufficient detail to enable the NRC staff to complete its detailed technical review and make an independent assessment regarding the acceptability of the proposed amendment in terms of regulatory requirements and the protection of public health and safety and the environment. Given the lesser scope and depth of the acceptance review as compared to the detailed technical review, there may be instances in which issues that impact the NRC staff's ability to complete the detailed technical review are identified despite completion of an adequate acceptance review. If additional information is needed, you will be advised by separate correspondence.
